Invested capital represents the total cash investment that shareholders and debtholders have made in a company. There are two different but completely equivalent methods for calculating invested capital. The operating approach is calculated as: $\text{Invested capital} = \text{operating net working capital} + \text{net property, plant \& equipment} + \text{capitalized operating leases} + \text{other operating assets} \dots$

A dual-listed company or DLC is a corporate structure in which two corporations function as a single operating business through a legal equalization agreement, but retain separate legal identities and stock exchange listings. Virtually all DLCs are cross-border, and have tax and other advantages for the corporations and their stockholders. In a conventional merger or acquisition, the merging ...
