Canvassing: Get awesome atâ€! by Seth Vincent [PDF/iPad/Kindle]

Like so many programmers, I held a strong prejudice against JavaScript up until about 2012. To do such an about-face still feels a little disorienting. My prejudice was for the usual reasons: I considered JavaScript a "toy" language (without really learning it properly, and therefore not knowing of what I spoke) that

Learning JavaScript - pepa.holla.cz

The canvas element has a DOM method called `getContext`, used to obtain the rendering context and its drawing functions. This function takes one parameter, the type of context 2d. The latest versions of Firefox, Safari, Chrome and Opera all support for HTML5 Canvas but IE8 does not support canvas natively.

Learning HTML5 Canvas with JavaScript - step by step

I am considering using pdf.js (an open source tool that allows embedding of a pdf in a webpage). There isn't any documentation on how to use it. I assume what I do is make an html page with the script referenced in the header, and then in the body, I put some sort of function call with an array of the file name and location.
