The respiratory rate in humans is measured when a person is at rest and involves counting the number of breaths for one minute by counting how many times the chest rises. A fibre-optic breath rate sensor can be used for monitoring patients during a magnetic resonance imaging scan. Respiration rates may increase with fever, illness, or other medical conditions.

Marijuana legalization New York City mayor Bill de Blasio announced his qualified support for recreational marijuana legalization Thursday. The mayor's view on how legalization should work appears to be in opposition to that of the Cuomo admin -- and it highlights the ongoing conversation over the role of local control and corporations in the future marijuana industry.
