

### **internal family systems therapy pdf**

The Internal Family Systems Model (IFS) is an integrative approach to individual psychotherapy developed by Richard C. Schwartz. It combines systems thinking with the view that mind is made up of relatively discrete subpersonalities each with its own viewpoint and qualities. IFS uses family systems theory to understand how these collections of subpersonalities are organized.

Family therapy, also referred to as couple and family therapy, marriage and family therapy, family systems therapy, and family counseling, is a branch of psychotherapy that works with families and couples in intimate relationships to nurture change and development. It tends to view change in terms of the systems of interaction between family members. It emphasizes family relationships as an ...
