

landmines in the path pdf

Demining or mine clearance is the process of removing land mines from an area, while minesweeping describes the act of detecting mines. There are two distinct types of mine detection and removal: military and humanitarian. Minesweepers use many tools in order to accomplish their task.

Demining - Wikipedia

A land mine is an explosive device concealed under or on the ground and designed to destroy or disable enemy targets, ranging from combatants to vehicles and tanks, as they pass over or near it. Such a device is typically detonated automatically by way of pressure when a target steps on it or drives over it, although other detonation mechanisms are also sometimes used.
