A Theory of Human Life History Evolution: Diet, Intelligence, and Longevity HILLARD KAPLAN, KIM HILL, JANE LANCASTER, A. MAGDALENA HURTADO Our theory is that those four life history characteristics and extreme intelligence are co-evolved responses to a dietary shift toward high-quality, nutrient-dense, and difficult-to-acquire food resources.

Ecology predicts life history evolution in birds Mar Unzeta Lloret Abstract: Although a number of studies describe current evolutionary patterns concerning life-history evolution, how historical changes in the way organisms interact with their environment have shaped life-history evolution still remains unresolved.
