CLIN28 - Computational Linguistics in the Netherlands

Hugo Brandt Corstius was the first to write a PhD on computational linguistics in the Low Countries. This was as early as 1970. Now, 40 years later, the field of computational linguistics has grown tremendously and computational linguistics is an active research area in Belgium and The Netherlands.

Archive of early Computational Linguistics publications in

M. D. de Wolff draws on theories of word meaning to get a handle on irony. The lack of contributions on semantics is probably related to the fact that, in the Netherlands, much work in formal semantics is carried out by philosophers rather than linguists. [Jack Hoeksema, University of Pennsylvania.] Electronic synthesis of speech. By R. Linggard.
