### **General Science - General Knowledge Questions and Answers**

Science in a broad sense existed before the modern era and in many historical civilizations. Modern science

is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...

An experiment is a procedure carried out to support, refute, or validate a hypothesis. Experiments provide insight into cause-and-effect by demonstrating what outcome occurs when a particular factor is manipulated. Experiments vary greatly in goal and scale, but always rely on repeatable procedure and logical analysis of the results.

I have a code that prints a selected area in a worksheet to PDF and allows user to select folder and input file name.. There are two things I want to do though: Is there a way that the PDF file can create a folder on the users desktop and save the file with a file name based on specific cells in the sheet?
