There is always something new coming out of Africa. Herodotus, fifth century B.C. Perhaps the most exciting prospect for the world of creation science is the possibility that dinosaurs may still be living in the remote jungles of the world. Evolution and its accompanying necessity of long ages of evolutionary development would be hard pressed to accommodate a living dinosaur.

Dinosaur fossils have been found on every continent on Earth; humans have inhabited, and continue to inhabit, every continent on Earth. Thus, it would seem that if dinosaurs and humans really did live as contemporaries at one time, as creationists contend, human fossils would have been found alongside, near, or in the same strata as dinosaur fossils.
