About the Author I am Bill Sempf, and youâ€™ notice that I donâ€™t write in third person. I have spent an inordinate amount of time in the last several years writing about, thinking about, and coding in VB.NET. I am a coauthor of Pro Visual Studio.NET, Effective Visual Studio.NET, Professional ASP.NET Web Services and Professional VB.NET (among others), and a frequent contributor to the

Visual Basic is engineered for productively building type-safe and object-oriented applications. Visual Basic enables developers to target Windows, Web, and mobile devices. As with all languages targeting the Microsoft .NET Framework, programs written in Visual Basic benefit from security and language interoperability.
