The video game crash of 1983 (known as the Atari shock in Japan) was a large-scale recession in the video game industry that occurred from 1983 to 1985, primarily in North America. The crash was attributed to several factors, including market saturation in the number of game consoles and available games, and waning interest in console games in favor of personal computers.

This item is listed as a 2-pack -- two toner cartridges in one box. But that's not what arrived. It's a single HP05X cartridge. I suspect this item was mis-entered into the computer system, possibly by somebody who thinks that the 05X (rated for 11,000 copies) is "2" cartridges because it has (more than) twice the capacity of the smaller HP05A.
