A state of total war emerged, directly involving more than 100 million people from over 30 countries.

The causes of World War I remain controversial. World War I began in the Balkans in late July 1914 and ended in November 1918, leaving 17 million dead and 20 million wounded. Scholars looking at the long-term seek to explain why two rival sets of powers—Germany and Austria-Hungary on the one hand, and Russia, France, and Great Britain on the other—had come into conflict by 1914.
