A writing system, also referred to as script or orthography, is a convention for representing the units of a spoken language by making marks on rocks, leaves, clay, bark, metal, or paper.

### **Writing Systems | About World Languages**

Early Writing: The Pictograph, Logograph, Syllabary, and Alphabet The first generally phonetic alphabet including both vowels and consonants was the Phoenician alphabet, which later inspired both the Greek alphabet and the Roman one we use in English today. Before phonetic systems appeared, the oldest types of writing involved pictographs. In

but easy to provide a clear deïƒnition of what writing is. Partly this is because of the multiple meanings of English words and partly because of the long history of writing and its great importance. At least six meanings of â€˜writingâ€™™ can be distinguished: (1) a system of recording language by means of visible or tactile

### **Writing Systems - The Library of Congress**

The original edition of Writing Systems represented the first time that modern linguistic principles were brought to bear on an investigation of the various ways in which the world's cultures have made spoken language visible and permanent.

32 A Comparison of the Chinese Writing System and Dongba Pictographs beginnings of their native writing system, but Western scholars demand a greater burden of proof. For a definitive answer, we can only await the excavation of further evidence.

## **A Comparison Between the Development of the Chinese**

writing is a misconception. Ideographic writing is conceived as a system of writing where the signs represent "ideas" directly without going via any particular language, so that people who speak different languages can still communicate in writing. The notion of ideographic writing has often been boosted by the fact that many Chinese
