Ethics or moral philosophy is a branch of philosophy that involves systematizing, defending, and recommending concepts of right and wrong conduct. The field of ethics, along with aesthetics, concern matters of value, and thus comprise the branch of philosophy called axiology.. Ethics seeks to resolve questions of human morality by defining concepts such as good and evil, right and wrong ...

In the mathematical field of complex analysis, contour integration is a method of evaluating certain integrals along paths in the complex plane.. Contour integration is closely related to the calculus of residues, a method of complex analysis.. One use for contour integrals is the evaluation of integrals along the real line that are not readily found by using only real variable methods.
